

JACKIE MORRISON

LOS ANGELES, CA

GRAPHIC DESIGNER

ADG / IATSE Local 800

818-429-2449

Hello! My name is Jackie Morrison and I am a Union Graphic Designer looking for work!

In addition to designing **logos, signs, posters, props, vehicle graphics & murals**, I can also build **aging and texture** right into my artwork to save time on the paint department, I can tackle any **Photoshop** project: compositions, color correction, cutouts, what have you! I also have strong **illustration and drawing skills** to create hand-painted looks or cartoons. I can do kids stuff! I can do police stuff!

Apart from my design skills I also have good relationships with all the **sign shops** in town, from **sourcing materials** to **clear communication** with my files and instructions. I have the necessary **speed** when under tight deadlines but I can also spend a lot of time on a project and be very **detailed** if needed. *Plus, I think I'm fun to work with!*

I have a good attitude whether dealing with clearances and budgeting, or helping construction and art directors stay on top of all the signs and where they go – maybe with a helpful “previs” if needed! In 2015 & 2016 alone I did graphics for **17 different TV Shows and 8 features and shorts**, in addition to my overall experience of 10 years in the industry.

Please check out my website to view my work, and I can also email you samples directly if requested! My resume is attached, thanks so much for your time and good luck in all your graphics needs.

Sincerely,
Jackie
