SKIN CARE AWARENESS & PROTECTION

DON'T GET BURNED

GET PROTECTED

Over-exposure to UV rays causes over 30% of all skin cancers - the most common cancer - but also the most treatable

When UV levels reach 3 or above, be sure to protect yourself, and sun block is the best and easiest way to prevent harm

SUN SAFETY

EASY TIPS AND TRICKS TO AVOID SKIN CANCER

Protection is your #1 priority

Over-exposure to UV rays causes over 80% of all skin cancers

SUN CREAM

Sun block is the #1 way to prevent skin cancer. SPF 30 or higher - use it!

SHADE

When the sun gets too hot, usually between 11-3, find a shady spot to cool down

WEAR SUN GEAR

Keep shoulders and face covered - protective clothing such as sun hats or even a simple t-shirt will really help

BE AWARE

Check the weather before you go out so you know how to prepare

SUNGLASSES

Protect your eyes from UV rays with high quality sunglasses
